

# California OES Weather Threat Briefing

Saturday, April 13, 2019  
9:00 AM PST

Day 1: No impacts expected today

---

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# **WEATHER KEY POINTS**

**04/13/19 - 04/19/19**

## **Saturday**

- No impacts expected today

## **Sunday-Tuesday**

- Precipitation will be confined to far northern CA with dry conditions across the rest of the state. No significant weather impacts expected.
- Winds will increase across extreme southern California, bringing the potential for minor impacts across the region

## **Wednesday-Friday**

- Increased temperatures late next week will begin to melt snowpack and will likely lead to rises in rivers and streams. No flooding impacts expected at this time.
- Winds will increase across a wider area of southern California, bringing the potential for minor impacts across the region
- There is a potential for hot and dry conditions with offshore flow for the end of next week across Southern CA.
